Unique Region

Located in the beautiful Danube Valley of Eastern Bavaria between Munich and Nuremberg, Ratisbona is the home of renowned universities and international companies such as BMW, Continental or Krones. The high-performing health service – from individual medical offices, to nursing homes, to best hospitals – supplies about 250,000 inhabitants in the city and the outer districts. We would like to strengthen this health network with you as a qualified health specialist!

We want you! You've got...

- a graduation/education in the health sector
- joy of caring for people
- knowledge of the German language at least A2, preferred B2

Don't waste this opportunity!

Your Free Time in Ratisbona

In Bavaria, but especially in Ratisbona and its rural districts and suburbs, people have a high quality life. All your wishes will be fulfilled!

Ratisbona...

- is a young, lively, very tolerant city. Once shaped by Roman legions, Ratisbona, with its picturesque alleyways, is actually reminiscent of a small Rome and is also called the "northernmost city of Italy".
- has a historic and medieval looking old town and has been declared as a UNESCO World Heritage. The city center is characterized by numerous historical places where people meet. There you will find a variety of things to do (such as events, theatre or varied gastronomy).
- has parks within the city area with a lot of „green“ to offer and also a huge number of playgrounds for your kids.
- is home to unique buildings in its town and in its rural regions, such as the gothic Regensburg Cathedral, the Stone Bridge, the princely Emmeram Castle and the Walhalla.
- has a huge range of free time activities and cultural events – and ambitious professional sports clubs, such as the SSV Jahn (football) or the „Eisbären“ (ice hockey).
- has numerous bathing lakes, rivers and other great destinations in its rural districts, such as castles and beautiful bicycle paths.

Highly Interesting Location

Ratisbona is not only a highly interesting location for a job in the healthcare sector. Especially in the economic sector, this city with its diverse industries is in a leading position. For example, the Ratisbona area offers you a variety of successful companies where your relatives or children can find well-paid jobs or future-oriented training places.

In addition, Ratisbona, with its large universities and other facilities, is also widely known as the home of innovation and research. The whole area is rounded off by an excellent infrastructure with a very good connection to public transport and the motorway network.
